### **STATEMENT: *Why I would like to be on the Codgers Board.***

As a member of the Codgers, the most important thing to me is the continuing of our mantra: fun and friendship. I also feel very strongly about honoring the legacy left by the founders of the league. As a board member, I will also be dedicated to enhancing all players' experiences through healthy competition. I believe that winning is great but secondary to our main purpose - having fun, making friends and being of service to the community.
